

Man Over Board

FO&O

Who made them captain of the ship
I think you feel a little sea sick
Storming couple set of drift
Heavy weather on the voyage
Broken vessels on the open sea
I'm taking over before you hit the shore
Call it love or call it mutiny
I can wait no more

There's a man over board, a man over board
There's a man over board
Mayday mayday
A man over board, there's a man over board, a man over board
Mayday mayday

We better loosen up the tides,
Loosen low before we capsize
With so much water on the rise,
It's like a ocean of emotion
I decided I ain't fallin' in, and I wont let him get the best o
f you
From here on out it's either sink or swim, grab on to something
new

There's a man over board, a man over board
There's a man over board
Mayday mayday
A man over board, there's a man over board, a man over board
Mayday mayday

Man over board, man over board, man over board
Mayday mayday
Man over board, man over board, man over board,
Mayday mayday

Mayday mayday
