

Teenage Talking

FO&O

Caught in super eight, she's missing me
We're taking frame by frame, she's stuck in my picture
And I could've just erase her but I won't
'Cause I like it and she wanted this I know

She let us walk and do the talking and I'm done for what she wants
I feel the smoky, heavy breathing, breathe them body, body talk
We're not ordinary people fall in ordinary love
And she likes it and I want it this I know
And she likes it and I want it

Like teenage talking
And we're putting into motion
Let me love, love you
Let me love, love you
We're teenage rocking
And she's moving this emotion
Let me love, love you
Let me love, love you

Decent darken sheets, she drinking me up, uh
Don't see her face, I feel her love and my brain's out
Yeah, she's caught the TV midnight scenes in the dark
And I like it and she wants it this I know
And I like it and she wants it

Like teenage talking
And we're putting into motion
Let me love, love you
Let me love, love you
We're teenage rocking
And she's moving this emotion
Let me love, love you
Let me love, love you
Love, love you
Let me love, love you
Love, love you
Let me love, love you

She let us walk and do the talking and I'm done for what she wants
I feel the smoky, heavy breathing, breathe them body, body talk
We're not ordinary people fall in ordinary love
And she likes it and I want it

Like teenage talking
And we're putting into motion
Let me love, love you
Let me love, love you
We're teenage rocking
And she's moving this emotion
Let me love, love you
Let me love, love you
Let me love, love you
Let me love, love you
Let me love, love you
Let me love, love you
