Volcano

FO&O

Tonight,
Living like we're strangers
Somehow,
The world is trying to get us
Alright,
It's you and I against the world
So I,
Want to be your anthem
We're doing this together
Alright,
It's you and I against the world

Tonight,
We're like a volcano
Start it up and let go
Start it up, let it go
Tonight we're like a volcano
Start it up ad let it go
Start it up, let it go

Tonight,
We belong together
Let's go,
Straight into forever
Alright,
You and I, you and I taking over
Somehow,
We're gonna make it better
You know,
It's always now or never
Alright,
It's you and I against the world

Tonight,
We're like a volcano
Start it up and let go
Start it up, let it go
Tonight we're like a volcano
Start it up ad let it go
Start it up, let it go

Guess nobody told ya
I'll be looking out for ya
I'll be there for ya
Under the volcano
Under the volcano

Start it up and let it go
We're like a volcano
