

Wild Hearts

FO&O

Let me show the world, from another view
Ask you downtown, girl I let you know, all the things we do,
all the wild side
And world cruising down every single day on the run
You and me are wild hearts, you and me are wild hearts
Always on the run, never coming down
You and me are wild hearts, we are wild hearts
We are wild hearts
We are wild hearts
Girl we dance all night in the live light
We got time, time
When the CD sleeps it's just you and me
And you mine, mine
And world cruising down every single day on the run
You and me are wild hearts, you and me are wild hearts
Always on the run, never coming down
You and me are wild hearts, we are wild hearts
We are wild hearts
we are wild hearts
We cruising down every single day on the run
But I always stay by your side
And I know that we
You and me are wild hearts, you and me are wild hearts
Always on the run, never coming down
You and me are wild hearts, you and me are wild hearts
You and me are wild hearts
Always on the run, never coming down
You and me are wild hearts
We are wild hearts
