

(Ayo, Trizzy, this shit hard)
You know everybody gotta die
Shit, even me, even you

Heard it's new pack in the air, I just let God take the wheel
23 be on my feet, but I'm dunking like Shaquille
Every time a new opp die, the whole city claim that drill
In the club with my niggas, rolling like a Ferris Wheel
That last body gave me chills
Last opp got overkilled
I got bullets on my bible and it's blood all in my tears
Loudest nigga in the room be the first one to go squeal (Rat)
Every time I think about Bibby, wonder the opps feel how I feel (Bibby)

Remember late nights with that TEC
Hit the opps block, [?]

They know it's me, look at my neck
They know it's me, stop all that [?], make me pull up in them apartments (Sk

On this trail four days straight, just me and JSoo on that Molly

And we took Lil Tiger gun (Ha)
We was robbing shit for fun, then we was robbing shit for funds
