

All We Are

Fools Garden

As I see you walking down the pathway
I take a look upon my life
So many years have passed, somehow I start to feel
I'm running out of time
Remember what my mother told me
She said: "One day you'll realize
The hardest thing is letting go the ones you love"
While tears came to her eyes

All we are
Is all we need
Don't ever go with what your mind says
Listen to your heart
Let all your dreams run free

And when you need someone to talk to
Be sure I'll always be the one
You can rely on me whenever you're in need
Even when I'm gone

And all we are
Is all we need
Don't ever go with what your mind says
Listen to your heart
Let all your dreams run free

Don't ever try to please the others
For sure, I know you'll never do
Take your life and go
We'll crumble into dust one day
Protect your heart
And all your dreams

'Cause all we are
Is all we need
Don't ever go with what your mind says
Listen to your heart
Let all your dreams run free
Let all your dreams run free
You're a part of me
