

Boomtown

Fools Garden

Don't be a maybe
'Cause you can be king
Take a ride through the universe
Don't wait! begin!
It's your life, baby waste it
Before it's too late
Honey, don't you be afraid

Just be what you wanna be
And don't you be blind
See what you wanna see
Come on, make up your mind
Don't stop the travelling
Voices inside lead you
Straight into the light
Straight into the light

Boomtown baby
You can make it here
Boomtown baby
Right before you disappear

Travelling, travelling

Try baby, taste it
Time's not on your side
Feel what you have to
Don't try to hide
Your heart is a traveller
You've travelled so far
And here is where you are

You can make it here
Boomtown baby
Right before you disappear

Boomtown baby
You can make it here
Boomtown baby
Right before you disappear
You're gonna make it here
