

Same old pathways we are walking  
Nothing's ever changed at all  
World is only shifting color  
Day by day, we rise and fall  
Building up and breaking down  
Time of peace and war  
Cast away and gathering  
Until we reach that shore

All you prophets, all you scholars  
Waiting for the day to come  
Science, progress, we can't stop  
The run of things, we'll all be gone  
The more we try to find, the less we see  
We'll fly to Venus  
We can accelerate the pace of change  
But who will redeem us?

All we are  
Is an ardent fire  
And we rise and fall  
Our life's desire  
All we are  
As long as we live  
As long as we give  
As long as we try to rise

Look up (Gain light)  
Why not? (It's your life)  
It's my faith (It's your time)  
It's my faith (in you)  
We will follow our ancestors  
On the way to kingdom come

All we are  
Is an ardent fire  
And we rise and fall  
Our life's desire  
All we are  
As long as we live  
As long as we give  
As long as we try to rise

All we are  
Is an ardent fire  
And we rise and fall  
Our life's desire  
All we are  
As long as we live  
As long as we give  
As long as we try to rise
