

# Fire

Fools Garden

We were young and wild  
And we ruled the world  
There was so much time  
And so much to see  
We were flying high  
We were falling deep  
We've been inviolate  
So young wild and free  
Now we're grey and old  
We've been down that road  
You're still lying here  
Right here beside me

I'm on fire  
I'm still on fire  
You are everything  
Forever you will be  
And now you're here and let me know  
It doesn't matter which way to go  
When you love someone  
When you love someone

We've put everything  
On the line to find  
Our way of life  
Our place to be

I'm on fire  
I'm still on fire  
You are everything  
Forever you will be  
And now you're here and you let me know  
It doesn't matter which way to go  
When you love someone  
When you love someone

And now you're here and you turn the key  
And the whole world falls asleep  
To the beating of our hearts  
They are beating in time after all  
The tears we have tasted  
And the dreams that we've wasted  
I would call you again at anytime

We're sailing on a boat of time  
We're drifting in an endless sea  
Everybody wants to find someone  
Everybody wants to be  
Taken to the other side  
You are here and let me know  
I can close my eyes  
You can let me go
