

## Fireflies

## Fools Garden

You got everything you wanted  
Is it everything you need?  
Does it really make you happy?  
Does it make you feel complete?  
Have you ever tried to listen  
To the beating of your heart?  
To the voices deep inside of you  
That tell you who you are  
Can't you see the fireflies

Say can't you see them?  
They're burning out beneath the skies  
They flash and sparkle and they glow  
With their own living light  
They drift around the universe  
Just for a moment in the night  
Don't be like these fireflies  
Shine bright on every day  
Underneath the endless skies  
Before you fly away  
Again

You got everything you wanted  
Is it everything you need?  
Does it really make you happy?  
Does it make you feel complete?  
Have you ever tried to listen  
To the beating of your heart?  
To the voices deep inside of you  
That tell you who you are  
Can't you see the fireflies?

See how they are  
Don't you see them?  
They are burning out beneath the skies
