

Here Am I

Fools Garden

I see the waves come
Come and wash away
Stones and footprints
Of the day

Here am I
And though I'm scared below
The endless sky
And the way I have to go
I see your eyes
And they are beautiful
Like endless morning light

No more running
No more bonds that bind
Storm is over
In my mind

Here am I
And though I'm scared below
The endless sky
And the way I have to go
I see your eyes
And they are beautiful
Like endless morning light
Here am I
And though I'm scared below
The endless sky
And the way I have to go
I know that I
Must draw the line
Until the morning light

Here am I
Yes, here am I
Yes, here am I

Will you save me
When I draw the line
Will you be there
When it's time

Here am I
And though I'm scared below
The endless sky
And the way I have to go
I know that I
Must draw the line
Until the morning light

Here am I
And though I'm scared below
The endless sky
