

## Higher

## Fools Garden

Remember the time  
When our life was safe  
We opened our eyes  
And everything was in its place  
We danced in the light  
Innocent and free  
Just you and me  
You're so true

You take me higher  
In a world out of control  
You're so true  
You carry the fire  
To the darkness of my soul

It's so long ago  
Since you left me behind  
Didn't you know  
I've been right here beside you  
All of the time  
Could have been you  
Could have been me  
One  
Complete

You take me higher  
In a world out of control  
You're so true  
You carry the fire  
To the darkness of my soul  
You're so true

You take me higher  
In a world out of control  
You're so true  
You carry the fire  
To the darkness  
Back to the darkness of my soul
