

Karma

Fools Garden

Quietness inside my mind
Storm inside my life
I have come to leave this place
And step into the light
Shine on my life
Shine on my life
Shine on my life
Shine on my life

Time has come to change it all
Time has come to fly
Someone called my name out loud
Someone called tonight
Shine on my life
Shine on my life
Shine on my life
Shine on

If I could find the way to you
What else was left for me to do
Would I return in peace someday
If I could find this way

What you give is what you get
Send out all your love
Send it out you'll get it back
More than enough
Send out your love
Send out your love
Send out your love
Send out, send out your love

If I could find the way to you
What else was left for me to do
Would I return in peace someday
If I could find this way
