

# Save the World Tomorrow

Fools Garden

Goodbye baby  
I have to save the world tomorrow  
I have to let the sun shine in our hearts again  
I have to get out and make it  
But honey, I'm gonna do it in style

Dreams  
They grow in silent places  
Somewhere deep inside  
Tears  
They dry on the smiling faces  
Birds  
Got wings to fly

And when the stars  
Explode tonight  
We have to kiss  
This life  
Goodbye

Goodbye baby  
We have to save the world tomorrow  
We have to let the sunshine in our hearts again (oh yeah)  
Goodbye baby  
This life is much too short for sorrow  
We have to find a way to end the days we spend  
Together I know we can make it  
And honey, we're gonna do it in style

I did not mean  
What I have said, I'm sorry  
Before the world  
Is falling into pieces  
I change my mind  
Right now  
But you just tell me

Fuck you baby  
You have to save the world tomorrow  
You have to let the sunshine in your heart again (oh yeah)  
Fuck you baby  
This life is much too short for sorrow  
We have to find a way to end this punishment  
You have to admit that maybe  
You'd better, you'd better  
You'd better bring it to the end
