She's So Happy to Be

Fools Garden

She says that: "All that I can say is I feel hungry" and today she says that all my hunger she'll satisfy no more

She says: "As far as I can see you're not the only one for me" She's leaving sweet illusions I'm all by myself

She's so happy to be It's too much freedom for me She has turned the key and she gives it back to me

She says that all I have to do is to watch out for someone new She says life's wonderful some consolation that is

She says 'chin up - your life goes on, you'll see I'm not the only one I won't be persuaded I don't see it that way

She's so happy to be It's too much freedom for me She has turned the key and she gives it back to me

All that I can find especially in my mind It's some kind of perfect interference All that I can see my baby's glad to be to all appearance All that I can say it's happening every day

She has turned the key and she gives it back to me

I guess she doesn't like that lovesong, I guess she doesn't like that way She says she doesn't like that lovesong, she says it and she walks away.
