

# She

## Fools Garden

She was lost  
She was haunted  
She was speaking  
With that shining in her eyes

She was ground  
She meant leaving  
Was the snowflake  
In my dry and burning mouth

She was blood  
She was heaven  
She was planted in my heart,  
In my heart

She was grace  
Was fulfillment  
My protection  
On the way I had to go

She was light in the darkness  
She was meaning  
Was the answer in my heart  
I was free  
I was flying  
All the questions fell apart

When my heart was locked in - yeah  
She blew up all the cages  
Locked in - yeah  
She gave love, she got me out again  
When I was kind of locked in

She was breath  
She was closeness  
In the distance  
Was my shelter in the rain

She was crown  
Crucifixion  
Was the doorway  
Was beginning and the end

She was light in the darkness  
She was meaning  
Was the answer in my heart  
I was free  
I was flying  
All the questions fell apart  
They all fell apart
