

# Shut

## Fools Garden

Crack of dawn  
Leave the night  
Open up and feel the light you walk in  
And it'll get you out  
Leave the dark and destroy  
All your thoughts that try to put you down

Don't waste your time  
Turn the key  
Unlock the door and save the life you're given  
Before they knock you out  
Walk the way, cross the line  
Don't you try to find the reason why

'Cause nobody knows, nobody knows, nobody ever knows

But it's time, honey  
You know that it's time, honey  
All you creatures  
Come on, reconnect the line

Break the chain  
Don't pretend  
It's a devil's smile  
And in the end they'll catch you  
You will be dressed to kill  
Don't you wait  
See the tide  
Is coming in  
To wash away your life

Nobody knows, nobody knows, nobody ever knows

But it's time, honey  
You know that it's time, honey  
All you creatures  
Do it  
Because it is time, honey  
You know that it's time, honey  
All you creatures  
Reconnect the lines  
Do it
