

What About You

Fools Garden

I'm gonna carry your bags
gonna polish your car
What else can I do?
Is there anything out?
Let me know
And I'm gonna put it in
Whenever you're in need my friend
You only have to call my name
hey hey

Didn't you say you're unhappy today
I'm gonna change it
Till the end of the world I would run
to get sugar for your tea
I would paint the sky with a rainy cloud
when knocking at your head my dear
hey hey

What about you hey hey
I know
What about me hey hey
I'm here
It's all about you and me
our life and our family
What about you
Hey what about you

Wherever you are and whatever you do
I'm gonna be there
Is there anything wrong?
Let me know
And I'm gonna make it right
You'll never be my yesterday

You will always be my now and here
hey hey

What about you hey hey
I know
What about me hey hey
I'm here
It's all about you and me
our life and our family
What about you
Hey what about you

We share the loneliness
We share the same sweet little things
that happen every day
And after all our years
I'm still the same addicted
still the same confused
when you are not near me

What about you hey hey
I know
What about me hey hey

I'm here
It's all about you and me
our life and our family
What about you
Hey what about you

What about you hey hey
I know
What about me hey hey
I'm here
What about you hey hey
I know
What about me hey hey
I'm here...
