

If Breathing Is Believing

For All Those Sleeping

The shadows overhead
Provoke the moon again
Look for the stars
When will this end
The path we've chosen
Leaves me trembling
This autumn calling
Can't be escaped

The wind screams ride with me

Watch your breath take shape
Tonight not even your words escape
We are the ones, we are the ones (we are the ones)

This is the last time you'll ever breathe

Look in these eyes, they're unforgiving
Your time has finally come
Don't ignore the calls, they scream your name
This season's made its final claim

I'm facing now
The thoughts that left me
And the insides empty
Not even the moon can save me
The path we've chosen
Where we're descending
This autumn calling
Can't be escaped

The wind screams ride with me

Watch your breath take shape
Tonight not even your words escape
We are the ones, we are the ones (we are the ones)

We are the ones
The air is moist, the fog is thick
I can't believe that it's come to this
Now it's clear so I'll submit
We are the ones
