

Substance

For the Fallen Dreams

What makes you who you are?
What makes you who you are?
What makes you who you...

I am the reason, that I am who I am.

What makes you...

I am the reason, that I am who I am.

The Feeling is setting in again,
I ask myself do i change or stay the same.
What happens when I just fade away,
I am not the same, we are not the same.

The Feeling is setting in again.
I found a way to change, I'll never be the same.
My minds made up and i'm here to stay.
I am not the same, we are not the same.

I'm counting down the days,
I'm living week by week.
Do you know what it takes to believe in me?
There's something leaving me.
I can't believe how far i've come, but how weak i'll be. (repeat)

Where do you go when youre all alone,
This worlds so cold you won't make it on your own. (repeat)

We all die younger.
We're losing sight of ourselves.
We all die stronger.
And its breaking me, this life is breaking me.

I'm counting down the days,
I'm living week by week.
Do you know what it takes to believe in me?
There's something leaving me.
I can't believe how far i've come, but how weak i'll be. (repeat)

We're losing sight of ourselves.
And its breaking me, this life is breaking me.
