

# Unstoppable

## For the Fallen Dreams

with each breath, with each step  
I fall a little further from the plans that I have laid  
with each breath, with each step  
I feel a little smaller in the bed that I have made

people will hate you shake you break you  
standing firm will make you  
unstoppable

when we stumble when we fall  
when there's nothing left at all  
we get up, we get up, we get up again  
we get up, we get up, we get up again

with each breath, with each step  
I fly a little closer to the ledge from where I fled  
with each breath, with each step  
I feel a little closure from the life that I have led

when the world is caving in  
when your skin is wearing thin  
we get up, we get up, we get up again  
yeah we get up, we get up, we get up again

and now I know how much I can take  
how my bones bend and crack before they break  
how long the night lasts before the day  
how far I need to walk around the world  
before I start back again

what doesn't kill you makes you stronger  
and you won't fear death any longer
