

# Forced Into Fire

For Today

Life or death  
Open your eyes before there's nothing left  
Life or death  
I fear we are facing our final breath

Life or death  
Open your eyes before there's nothing left  
Life or death  
I fear we are facing our final breath

Living on borrowed time  
Dwelling in despair  
The weight of our malevolence  
Is more than we can bear

Forced into fire  
Purify  
A world rotting to the core

Forced into fire  
We can't revive  
A world forever at war

In the midst of desolation  
There is a call to a new life  
(Call to a new life)  
Take the scars from my soul  
Draw out the parasite

The heavens cry  
Tears of blood  
For the fallen world

Where is the standard of Man  
Within the lawless plague?

The heavens cry  
Tears of blood  
For the fallen world

Where is the standard of Man?  
Distorted by hatred  
Hatred and rage

Forced  
(Forced)  
Into fire

Forced  
(Forced)  
Into fire

Life or Death  
Open your eyes before there's nothing left  
Life or death  
I feel we're facing our final breath

Life or death  
Open your eyes  
Life or death  
I feel we're facing our final breath

The heavens cry tears of blood  
For the fallen world

The heavens cry tears of blood  
Tears of blood for the fallen world

The heavens cry tears of blood  
Tears of blood for the fallen world
