

Easy To Lie

Forest Blakk

Your eyes
How did it happen again?
My hands all over your skin
Sheets begging me to give in
Chasing the taste of your lips
A vision of you in my head
I admit, I can't forget
I can't forget what I did

And I tried
My body is aching tonight
And your heart is breaking inside
But you made it easy
You made it easy
You made it easy to lie
Body is aching tonight
And my heart is breaking inside
But you made it easy
You made it easy to lie

How long has it been
So carelessly close to the edge
The sound of your every breath on my neck
I confess I'm obsessed
I like the way you undress
The chemical rush in my head
I admit, I can't forget it
No

That I tried
My body is aching tonight
Your heart is breaking inside
But you made it easy
You made it easy
You made it easy to lie
My body is aching tonight
My heart is breaking inside
But you made it easy
You made it easy to lie

And I tried
My body is aching tonight
And your heart is breaking inside
But you made it easy
You made it easy
You made it easy to lie
Your body is breaking tonight
My heart is breaking this time
But you made it easy
You made it easy
You made it easy to lie
