

Where I Want To Be

Forest Blakk

Right from the start
You saw my scars but you stayed close
You opened your arms
Showed me a love like I've never known

And when I'm with you
There's no place I wouldn't go
Dark clouds or shadows, won't keep me away

So show me the edge and I'll take the leap
I'll give you my hand and you can take the lead
I'll fall for you with all of me
My head and my heart, wherever you are
That's where I wanna be

I used to hide
Running from life but there was no escape
Now I look in your eyes
And you're every reason I was meant to stay

'Cause when I'm with you
You bring these old bones back to life
No dark clouds or shadows
Could keep me away

So show me the edge and I'll take the leap
I'll give you my hand and you can take the lead
I'll fall for you with all of me
My head and my heart, wherever you are
That's where I wanna be (That's where I wanna, that's where I wanna)
That's where I wanna be, oh

From north to south, east to west
From sky to ground, in life for death
Beginning, until the very, very end

Show me the edge and I'll take the leap
I'll give you my hand and you can take the lead
I'll fall for you with all of me
My head and my heart, wherever you are
Show me the edge and I'll take the leap
Give me your hand, and I'll take the leap
I'll fall for you with all of me
My head and my heart, wherever you are
That's where I wanna be (That's where I wanna, that's where I wanna,
that's where I wanna be)
That's where I wanna be (That's where I wanna, that's where I wanna,
that's where I wanna be)
