

# Missing

## Forever In Your Mind

Locked in, shut out  
Dark skies crashing down  
Hanging by a thread  
Without you I'm lost in my head

I don't need the world to love me  
I just need to do what's right for me

Baby, I'm missing you  
I'm one breath away, it's almost too late  
Baby, I'm missing you  
And all that remains is my broken faith

Missing you  
Missing you  
And I'm missing me too  
And I'm missing me too

They ask "What's wrong?"  
In their eyes they know I'm gone  
No words come out  
In my mind I'm crying out

I don't need the world to love me  
I just need to do what's right for me

Baby, I'm missing you  
I'm one breath away, it's almost too late  
Baby, I'm missing you  
And all that remains is my broken faith

Missing you  
Missing you  
And I'm missing me too  
And I'm missing me too, yeah  
And I'm missing me too  
Missing you baby, missing you baby

Baby, I'm missing you  
I'm one breath away, it's almost too late  
Baby, I'm missing you  
And all that remains is my broken faith  
Baby, I'm missing you  
I'm one breath away, it's almost too late  
Baby, I'm missing you  
And all that remains is my broken faith

I'm missing you  
(I'm missing you, missing you babe)  
I'm missing you  
(I'm missing you, missing you babe)  
And I'm missing me too
