

Rabbit Hole

Forever In Your Mind

I said oh, messing with my head
Like oh, caught up in the mix
Oh, yeah you got me losing it night by night
I said oh, I really know I shouldn't
But oh, I never feel like this
Oh, can't believe I'm doing this night by night

My world keeps spinning
Got double vision and vertigo
I love the feeling
Night by night

And for the first time I can't let go
I would give it up but I love it all
I was innocent but I know, know, know
I'm going down the rabbit hole
And for the first time I got too close
I would stay away but I love it all
I was innocent but I know, know, know
I'm going down the rabbit hole

I said oh, dancing in the moonlight
Oh, forever on a trip
Oh, yeah you got me losing it
Night by night
I said oh, wish upon a star
Like oh, I hope this never ends
Oh, can't believe I'm doing this
Night by night

My world keeps spinning
Got double vision and vertigo
I love the feeling
Night by night

And for the first time I can't let go
I would give it up but I love it all
I was innocent but I know, know, know
I'm going down the rabbit hole
And for the first time I got too close
I would stay away but I love it all
I was innocent but I know, know, know
I'm going down the rabbit hole

I said oh, messing with my head
Like oh, caught up in the mix
Oh, yeah you got me losing it
Night by night

And for the first time I can't let go
I would give it up but I love it all
I was innocent but I know, know, know
I'm going down the rabbit hole
And for the first time I got too close
I would stay away but I love it all
I was innocent but I know, know, know
I'm going down the rabbit hole

Down the rabbit hole
I'm going, I'm going
I'm going down
I'm going down the rabbit hole
I'm going, I'm going
I'm going down the rabbit hole
And for the first time I can't let go
I would give it up but I love it all
I was innocent but I know, know, know
I'm going down the rabbit hole
