

Whistle

Forever In Your Mind

Stupid of them
To think you'd play along
Cause you're not that girl at all
I bet they've been
Blowing up your phone
I bet they ask if you're alone

I'd roll up my sleeves and drop to my knees for you girl, for you girl
I'd disturb the peace and make enemies for you girl, for you girl

Them boys don't put in the time
I'm gonna do it do it right
They can try girl it really don't matter
What they do girl I'm doin' it better
Just blow them kisses goodbye
Cause it's just you and me tonight
Got em wishing it would've worked harder
I'll be whistling while I work for ya
I'll be whistlin', whistlin' [x2]

Swear it's worth it
When you're lovin' what you do
Cause I sure love lovin' you
You're so perfect
The way you're lookin' now
Got everybody missin' out

Them boys don't put in the time
I'm gonna do it do it right
They can try girl it really don't matter
What they do girl I'm doin' it better
Just blow them kisses goodbye
Cause it's just you and me tonight
Got em wishing it would've worked harder
I'll be whistling while I work for ya
Whistlin' while I'm workin'
I'm whistlin' while I'm workin' for ya [x2]

I'd roll up my sleeves and drop to my knees for you girl, for you girl
I'd disturb the peace and make enemies for you girl, for you girl

Them boys don't put in the time
I'm gonna do it do it right
They can try girl it really don't matter
What they do girl I'm doin' it better
Just blow them kisses goodbye
Cause it's just you and me tonight
Got em wishing it would've worked harder
I'll be whistling while I work for ya
Whistlin' while I'm workin'
I'm whistlin' while I'm workin' for ya [x4]
