Do Your Worst

Forever Still

Lips are sealed
I'll keep them shut
To keep you satisfied

Bittersweet
Not bringing up
What's really on my mind

Give me wings, shoot me down
Catch me as I hit the ground
Do your worst to shut me up
That won't make it stop

Set me free
Your eerie screams
Keep ringing in my head

You don't see
What you give me
Is really all you get

Give me wings, shoot me down
Catch me as I hit the ground
Do your worst to shut me up
That won't make it stop

Everything is fair in love and war
You will learn
I learned...

I don't need your acceptance
Your permission
You just fed the monster

When did the truth get so conflicting?
Don't forget that you can't

Give me wings, shoot me down
Catch me as I hit the ground
Do your worst to shut me up
That won't make it stop
