

Fight!

Forever Still

It took time
To discover being left behind was fine
Now I'm mine
And I'm coming to my senses

Reach out
Fall down
Crawl on
Fight!

And so the stars align tonight
Ready for our fight
And all we stand for
Won't be hidden out of sight

Close your eyes
And imagine being free from your disguise
They despise
That we're not what they have made us

Hear us
See us
Fear us
Fight!

And so the stars align tonight
Ready for our fight
And all we stand for
Won't be hidden out of sight

Say goodbye to the sleepless nights
Say goodbye to your fear of heights
Say goodbye to your wish to die
Say goodbye to the tears they made you cry

And so the stars align tonight
Ready for our fight
And all we stand for
Won't be hidden out of sight

If you thought it was over now
Know we've just begun
And I swear that we won't bow down
Stand and fight!
