

## Come Clean

Forth Wanderers

I know I've said some things  
I do not mean  
I do not mean  
But I'll come clean  
Yeah, I'll come clean

I think you're where I breathe easy

You look like something I've never seen  
Something unclear to me  
And I'd like to lie down in your bed and stick around

I wanna be all yours  
Look at you with no words  
I wanna know for sure

I wanna make you feel good  
Like I know I should  
Like I know I would

Help me I think I'm falling apart  
I can't get rid of my aching heart  
And I won't come clean  
No, I won't come clean
