

Fuck

Forth Wanderers

You know I was thinking a lot that day but I should've kept my
mouth shut
And I never thought I would say anything but I guess I didn't g
ive a fuck
You see I'm the type of person who does what they want
And I'm still not happy enough

Should've kept the words on the tip of my tongue
And just wait for once
Hear what you have to say
Let things feel okay

Well, my eyes get heavy and I'm not so loud
Take me home or I'll hit the ground
You know I'm not so smart when it comes to the sound
Of things that'll bring you down

Now I can't, I can't start
Anything with a full heart
I can't start, I can't start
Anything with full heart
With full heart

You know I was thinking a lot that day but I should've kept my
mouth shut
And I never thought I would say anything
But I guess I didn't give a fuck
