

New Face

Forth Wanderers

I don't know who
But I like his name
And when I look at you
I'll know who to blame

I woke up to a new face
I woke up in a new place
But I won't stay

I don't know where
But I know the state
And when you say I'm unfair
I don't take the bait

I woke up to a new face
I woke up in a new place
But I won't stay
No, I won't stay

I think you know me better than that

But I like his name
Oh, I like his name

I woke up to a new face
I woke up in a new place
But I won't stay
