

Look at the way I move  
Do you like to watch me dance?  
'Cause I could get in the mood  
Baby, I could get in the mood

Tell me what you want  
You know you lead me on  
You say it's not your fault  
But where'd you get that from?  
Where'd you get that from?

Take me piece by piece  
Do you like to not let him know?  
The way you talk to me  
It's all just for show

Tell me what you want  
You know you lead me on  
You say it's not your fault  
But where'd you get that from?  
Where'd you get that from?

I've dreamt you  
Nights on end  
I've dreamt you  
Nights on end

Tell me what you want  
You know you lead me on  
You say it's not your fault  
But where'd you get that from?  
Where'd you get that from?

I've dreamt you  
Nights on end  
I've dreamt you  
Nights on end
