

# Work

Forth Wanderers

Trust me I'm not the one you're looking for  
See me waiting, watching the door  
The first light, stomach starts to hurt  
Second, I like it

And I'm not around  
I'm not around  
I'm not around

Third it's okay, sleep through the day  
Dreams of humane

I'll come down if I come on through  
I'll come down when I come on through

Third it's okay to sleep through the day  
Dreams of humane, they're all just mistakes  
I'll be sure to awake if you get in too late  
I've got nothin' to say gotta get on my way, on my way

Fourth I feel good on a warm summer night  
With nothin' to feel with no one in sight  
There's no feeling to fight  
Things seem just fine  
Gotta be on time  
Be on time, be on time

Long car rides make me upset  
Taking medicine, rest your head  
Rest your head

Down by the water is where I wanna be  
All the colors calm me down  
The blue's and the green's  
The blue's and the green's

And I can't help myself  
They say it's hard to tell  
And if I'm making you sad  
Don't put up with that

I swear I mean well  
Swear I mean well  
Swear I mean well
