

Empty

Four Star Mary

all of your drams just leave me empty
all of your dreams just leave me dead

look at me
"im gonna be"
but you dont see the things i see
another dove, up above
but you dont like the things i love
and im hard enough again
come feel me
and im tired of all the rest
come see me

all of your dreams just leave me empty
all of your dreams just leave me dead

ive become a second son
to you and all the things ive done
i could become the only one
but you dont like the drugs im on
but im hard enough again
come feel me
and im tired of all the rest
come see me

all of your dreams just leave me empty
all of your dreams just leave me dead
