

It's all about me
It's all about you
You make me high
With every single sigh
It's not always bliss
You're all that I miss
Your scent gets me high
It's simply the reason why

Just like my favorite song
I can't get enough

Believe it or not, deep inside
'Cause eyes never lie, might as well smile
Believe it or not, wherever this goes all I know
You make me high

You're all that I wish
But I sometimes miss
But I can't deny, can't deny
Waking up by your side

Just like expensive wine
We'll mature in time

Believe it or not, deep inside
'Cause eyes never lie, might as well smile
Believe it or not, wherever this goes all I know
You make me high
You make me high

Oh I never buy you flowers, I never buy you flowers
I never buy you flowers but I give you all of my hours
Oh I never buy you flowers, I never buy you flowers
I never buy you flowers but I give you all of my hours
Never buy you flowers, never buy you flowers, never buy you flowers,
never buy you flowers
Never buy you flowers but I give you all of my hours
You make me high, you make me high
You make me high, so fucking high

Believe it or not
[?] always right
You make me high, you make me high
Just makes me high
