

candy grapes

Fousheé

It's easy to love me
Consider you lucky
Sweet but sinister
Try me I swear
I'm gonna let down my hair
I'm gonna break things in here
You come for me, better beware
Try me I swear

Some say we're the weirdos
The quiet ones should be feared most
I can hit you with the Draco
I can wear a halo
Try me I swear

I feel oh so lonely
No one truly knows me
Damn, I'm not in disguise
Try me two times
I'm gonna let down my hair
I'm gonna break, I don't care
You come for me, I don't play fair
Try me I swear

Some say we're the weirdos
The quiet ones should be feared most
I can hit you with the Draco
Or I can wear a halo
Try me I swear

I'm fall, I'm falling
I'm on my way back home from here
And if I fall off track
Um, what was it?
Um, it was, track (No it was)
Track (Yeah)
Track (No, sorry)
Track, yeah yeah yeah

Ooh, ooh, ooh, ooh
La la la
Woo hoo ooh
I wanna lay by your side
I wanna, I wanna be on your side
I wanna be by your side
I wanna be by your side
I wanna be by your side

Can you feel something?
Can you feel something?
I feel something, babe
Can you feel? Woo
Aye, can you feel?
Can you feel?
Can you feel?
