

do you have a soul?

Fousheé

When I'm deep in my hysterics
Burning midnight oil
Hold me by the hand
Then, I'll wrap my love around
Destined to become
Compassionate in form
Limber and assured
What if the moon's a disco ball
I'm gonna dance all night long
Do you have a soul?

In your body, in your body, in your body
Do you have a soul?
In your body, in your body, in your body
Do you have a soul?

Can we turn the other cheek
Knowing there's a need for humanity
Erasing feelings like they're saved in the drive
We ran out of storage and capacity for it
And if the tides were to turn
You're gonna need CPR
Do you have a soul?

In your body, in your body, in your body
Do you have a soul?
In your body, in your body, in your body
Do you have a soul?
