

Late Night

Fousheé

Sleep don't phase me
Late night cravings
Ooh, you take me there
Constant rewind
Know I need my supplemental care

Passing my chest don't think
I ever held my breath for so long, so long
Right after question why you
Had left me on red for so long, so long

I'm not your teacher, not your preacher so do what you please
I honestly just wanna tap into your frequencies
Might be my muse, I highly do accept your company

Take off your shoes, let's watch a movie, grab some food and rhyme
It's us and them, I'm rollin' with you if we choosin' sides
Turn on my playlist, got me swayin', now we movin' right, right

I swear your bed is the warmest
(It's the warm, it's the warmest)
Just wake me up in the morning
(In the morn, in the morning)

Sleep don't phase me
Late night cravings
Ooh, you take me there
Constant rewind
Know I need my supplemental care

'Cause I ain't into this
Drop into your crib
Waitin' at your door
For you to buzz me in

No, I ain't interested
In all that other shit
They claimin' ownership
They see me with a king, oh

Passing my chest don't think
I ever held my breath for so long, so long
Right after question why you
Had left me on red for so long, so long

I'm not your teacher, not your preacher so do what you please
I honestly just wanna tap into your frequencies
Might be my muse, I highly do exact your company

I'm not your teacher, not your preacher so do what you please
I honestly just wanna tap into your frequencies
Might be my muse, I highly do accept your company
