

let u back in

Fousheé

ETA?

I'll wait up

Door's unlocked

I'll unblock

If I let you back in would promise you wouldn't fuck up again

Would you tell those hoes that I'm not like them

'Cause I need to know, I need to know before

You get here, you get here (get here)

I don't get much guests up here

I'm hanging from the chandelier, I'm happy for you

And you pull the stunt every year

Of course I miss you don't abuse your power

If I let you back in would promise you wouldn't fuck up again

Would you tell those hoes that I'm not like them

'Cause I need to know, I need to know before

You get here, you get here

Before you get here

Before you get here, get here

I need to know, I need I need

I need to know before

I need to know

I need to know before

You get here, you get here
