

scream my name

Fousheé

You wanna kick it, wanna dance with me
Whole club kissing, they scanning me
You like it rough, I'm manhandling
I'm on your mix, oh you're a fan of me?

I got that superstar energy
I know you see me on your TV screen
You want to follow, swiping through your feed
Let a rich it girl swipe you off your feet

So scream my name, we should do it on stage
They want this life, craving some fame

She's super pretty, she pulling out her titties
She popping bottles, she like her weed sticky
She's super mixy, the bitch is too mixy
She been here 10 minutes, now she's at the bar tricking

They like, "Britanny, come and take a shot with me"
"Let's hit the after party, come and spin the block with me"

So scream my name, we should do it on stage
They want this life, craving some fame

Ready? Dance
Dance

Going ham on the floor
She's a ketamine whore
Every party she'll be leaving with a pretty girl boy
Doing line after line
Skipped the line at the door
Every party she'll be leaving with a pretty girl boy

So scream my name, we should do it on stage
They want this life, craving some fame
So scream my name, we should do it on stage
They want this life, craving some fame
Fuck
