

## sing about love

Foushé

I can finally sing about love again  
I could see in color I'm in love again  
It's been since forever  
Swore I would never  
I'll probably regret this but I  
I can finally sing about love again

It's what I been waiting for  
Everything I want  
You shouldn't make homes of people  
What is this leading me to  
Even worse I follow  
When you step, I'm five toes  
Even my darkest days  
I keep a spot for you  
I keep it all bottled  
You show me how not to  
I like your honesty  
I sing about a lot of things now I

Can finally sing about love again  
I could see in color I'm in love again  
It's been since forever  
Swore I would never  
I'll probably regret this but I  
I can finally sing about love again

So good, so good  
And it feels organic  
I'm very into that  
I might miss your call  
But I always hit you back  
But I always hit you  
I can finally sing about love again  
I can finally sing about love again
