

Hold up, wait  
What's good tonight?  
See you after work, we're eating good tonight  
Hands up and it's alright  
Woke up on a Friday night

We could sleep in the sunrise  
Brush teeth and I feel alright  
All I wanna do is make you smile

What good is it giving up?  
All I wanna do is make you smile  
What good is it giving up?  
All I wanna do is make you smile

Climbing out the window  
Falling down in the cold snow  
Eyes reflecting off the flashlight  
Woke up on Friday night

What good is it giving up?  
All I wanna do is make you smile  
What good is it giving up?  
All I wanna do is make you smile
