

## Sick Day

Fox Academy

One, two, ready go  
I love haircuts  
I'll laugh at your jokes  
Nose like strawberry  
Doctor's prescription  
Tell me all you know  
Walking through the snow  
Fix like Home Depot  
I feel better

I love everything now  
Rosy complexion  
I love everything now  
This feels special

We walk down the driveway  
And I can't help but remember  
The times we kicked the leaves and dreams of honey  
Look at us now

I love everything now  
Rosy complexion  
I love everything now  
This feels special
