

# Headlights

Fox Stevenson

Headlights, full-bright  
Somehow I'm alright  
These night lights and hindsight  
Remind me I'm alright

I let it all go  
I could never get it right  
And I let it all go  
I'm running for my life  
And I know that you know  
These things that haunt me in the night  
I let it all go, all go

All go  
All go

They say it's all show  
They say I should act my age  
But I guess I don't know  
When it was I should've changed  
And I watch this night glow  
Try to tell me I'm okay  
But I let it all go, all go

And now I'm running out into headlights, full-bright  
Somehow I'm alright  
These night lights and hindsight  
Remind me I'm alright

We've been running around  
Running through these towns  
And they say the cities are paved with gold  
As the buildings pass we catch reflections in the glass  
I see people but I don't see souls  
I live up in the clouds  
And now I come back down  
I find another man in my bed  
And this night can't last  
They tell me things will pass  
But I can't get this out my head

It's all headlights, full-bright  
Somehow I'm alright  
These night lights and hindsight  
Remind me I'm alright

All go  
All go  
I let it all go, all go

And now I'm running out into headlights, full-bright  
Somehow I'm alright  
These night lights and hindsight  
Remind me I'm alright

Headlights, full-bright  
Somehow I'm alright

These night lights and hindsight  
Remind me I'm alright
