

Let This Go

Fox Stevenson

I think I'm in need of a quiet walk home
And as we step forward, we would rather be alone

So, make some noise while you got time!
Take this poison for your mind!
Who knows, you could be gone by this time tomorrow, and
I don't know where we're going
But I take pride in not knowing
And you say I will be the one to let this go!

So, make some noise while you got time!
Take this poison for your mind!
Who knows, you could be gone by this time tomorrow, and
I don't know where we're going
But I take pride in not knowing
And you say I will be the one to let this go!
