

Perfect Lie

Fox Stevenson

It's been a long time coming
But I wish it took longer
We did what we could with all the stuff that we had
We spent summers living in stereo
Driving to songs that we hate on the radio
Yeah, we had it good for a while until we ran outta gas

We used to sing
"What have we done?
This is a perfect lie
We did everything wrong
But we turned out alright
What have we done?
This is a perfect lie"
I never thought it would've ended like this

We used to sing
"What have we done?
This is a perfect lie
We did everything wrong
But we turned out alright
What have we done?
This is a perfect lie"
I never thought it would've ended like this

Five years on, I sometimes wonder what you're doing
I don't want you back
It'd just be nice to know
For a moment we had something beautiful
I won't hold it against you, I never could
We both knew this couldn't last
I'm glad we gave it a go

We used to sing
"What have we done?
This is a perfect lie
We did everything wrong
But we turned out alright
What have we done?
This is a perfect lie"
I never thought it would've ended like this

I never thought it would've ended like this
