

Absolute

Foxes

Fall into the morning
Fade into the evening
Midnight, take it all in
Ready to believe again

Our time you can measure on a feeling
Feels like I'm looking at my body from the ceiling
This time I think I wanna lose control

Is it moving you, moving you, moving you?
I got this feeling all around me
And it's absolute, absolute, absolute
This new synergy
You and me
Every time we come together
Every time we come together

Hello, missed you, all time
Don't need to understand it (Don't need to understand it)
Visions colour my mind
And you are where I'm landing (You are where I'm landing)

Our time you can measure on a feeling
Feels like I'm looking at my body from the ceiling
This time I think I wanna lose control

Is it moving you, moving you, moving you?
I got this feeling all around me
And it's absolute, absolute, absolute
This new synergy
You and me
Every time

Is it moving you, moving you, moving you?
I got this feeling all around me
And it's absolute, absolute, absolute
This new synergy
You and me
Every time we come together
Every time we come together

(Every time we come together)
Every time we come together

Our time you can measure on a feeling
Feels like I'm looking at my body from the ceiling
This time I think I wanna lose control

Is it moving you, moving you, moving you?
I got this feeling all around me
And it's absolute, absolute, absolute
This new synergy
You and me
Every time

Is it moving you, moving you, moving you?
I got this feeling all around me

And it's absolute, absolute, absolute
This new synergy
You and me
Every time we come together
