

All I Need

Foxes

Why is half of me
Always some place close to you?
Tell me how it is
And where the fire's seeming through
You are always hiding madness
Saying it when I'm alone
Shelter me
And I don't know why it is

When we get lost
When the sky's low
I look to you to guide me home
When there's no ground
Nowhere to go
I'll be waiting for you to guide me home

You're all I need [x6]

You shine like a light
Blazing down on me
It's very crucial now
I'll trace your skin to sea
Your hand across my heartbeat
Feel you rushing through my veins
You're all I need
You're always home for me

When we get lost
When the sky's low
I look to you to guide me home
When there's no ground
Nowhere to go
I'll be waiting for you to guide me home

You're all I need [x6]

Need
Oh, no
You're all I need
Need

When we get lost
When the sky's low
I look to you to guide me home
When there's no ground
Nowhere to go
I'll be waiting for you to guide me home

You're all I need [x12]

You're all I need
All I need
