

Courage

Foxes

Everything you're going through
And everything is changing
Don't know where you're running to
Stranded on the other side
And everybody's watching
You know I'm like this too

'Cause when we lie, we tell the same
Pretend that we are young again
You can't deny it feels the same to you, to you

I give you my courage
If you give me your troubles
I won't let you down
I won't let you down
You give me your courage
If I give you my troubles
You won't let me down
You won't let me down
I give you my courage
I won't let you down
I won't let you down
You give me your courage
You won't let me down
You won't let me down

I'm seeking your attention
Just for the reaction
Doesn't get me close to you
It's funny that we're silent
When we all need connection
'Cause I know that you need me too

'Cause when we lie, we tell the same
Pretend that we are young again
You can't deny it feels the same to you, to you

I give you my courage
If you give me your troubles
I won't let you down
I won't let you down
You give me your courage
If I give you my troubles
You won't let me down
You won't let me down
I give you my courage
I won't let you down
I won't let you down
You give me your courage
You won't let me down
You won't let me down

We've been learning to trust trouble
We've been letting our habits get their way
I've been trying to love you better
All I can do is

Give you my courage
If you give me your troubles
I won't let you down
I won't let you down
You give me your courage
When I give you my troubles
You won't let me down
You won't let me down

I give you my courage
I won't let you down
I won't let you down
You give me your courage
You won't let me down
You won't let me down
I give you my courage
I won't let you down
I won't let you down
You give me your courage
You won't let me down
You won't let me down
